

**Micropro**

Thinking Reality...Committed To Success

UTILIZE THE POWER OF INTERNET FOR e-CLAIMS

**+009 - 715 - 29971474****OR**sales@microproindia.com

"Micropro established in 1988 is one of the oldest software companies in Central India. Although its nerve centre is in Nagpur, but due to the quality services it offers, Micropro is operating in varied parts of the world. The advanced "Hospital Management System" developed by Micropro is apt for both small clinics as well as big hospitals. Micropro has successfully implemented e-Claim and e-Prescription in a number of clinics and hospitals in UAE.

Hospicare

A Complete Hospital Management Information System

SaaS Model

The "SaaS" model of Hospicare designed after prudent research and market study by Micropro encompasses all the features embedded in latest technology and at an affordable price. The customers are not required to invest in costly IT infrastructure and resources to run the application.

e-Prescription

e-Prescription will play an important role in enabling the DHA to

- Minimize manual prescription mistakes in prescribing and dispensing
- Reduce fraud, abuse and waste
- Monitor drugs utilization more efficiently in Dubai
- Reduce patient's wait at Pharmacy significantly
- Inform patients about insurance coverage

e-Claim

Dubai Health Post Office (DHPO) is designed to serve as a communication hub for electronic health claim transactions within the Dubai area. The system is enabled to support multiple electronic claiming transactions providers, payers, authorities and patients.

Hospicare is customized as per the DHA requirement for e-Claim generation & submission through the regular module of Insurance. This will remove all human interventions and possible issues arising out of it. The patient will naturally get faster claims in turn.

Modules Offered

- Patient Registration
- Doctor's Appointment
